> **From the moment I built my first application, I knew web development was the perfect blend of creativity and logical thinking that would become my passion.**

Expert full-stack developer specialising in React, Vue, and Angular with a proven track record of leading projects. Employs a development strategy which combines graphic design principles with seamless user experience, and building maintainable, flexible, and extensible code.

Portfolio Projects

Social Media App
Vue, .NET Core, SQL
C#, JavaScript, Tailwind
Developed features such as posting, commenting and sharing with AJAX requests. Includes account management with JWT authentication.

Clothing Brand
MEAN Stack
MongoDB, Entity Framework, Angular, Node.js, TypeScript, Bootstrap
Implements MongoDB filtering & searching for products with cart functionality.

Travel Website
React, .NET Core
JSON, C#, TypeScript, Tailwind
Handles JSON data deserialisation, static files and local storage with robust error handling and responsive design.
